Kids Action for Kids

“
Everyone can
help, and
every
contribution
counts!
”

Haakon Brekke, Chairman

Around 1 out of 700 children in Thailand and Myanmar are born with a cleft lip, cleft palate or other facial deformity. These children have difficulties eating, speaking, socialising and smiling. Their families are often unable to pay for an operation.

Kids Action for Kids cooperates with Operation Smile Thailand to finance surgeries for as many children as possible.

Surgery for one child costs approximately 25,000 THB (800 USD) and takes as little as 45 minutes.

We hope you will help us! Everyone – children, teens and adults – can help and every contribution counts! Read more about our projects and how you can help at:
